

4° ROME

PERIPHERAL
INTERVENTIONS

ROMA
20-21 GIUGNO 2025

VENERDÌ, 20 GIUGNO 2025

09:00 Opening Session
09:15

09:30 FROM INTERVENTION TO PREVENTION: HOW TO IMPROVE THE CARE OF
11:30 PATIENTS UNDERGOING PERIPHERAL INTERVENTIONS IN 2025

09:30 The heart of the problem: long-term prognosis of patients with peripheral arterial disease

09:40 Radial access for peripheral vascular interventions: a new paradigm shift?

09:50 Intravascular imaging for peripheral interventions: are we ready for prime time?

10:00 Antithrombotic therapy after endovascular procedures

10:10 Practical guidance on lipid-lowering therapy: statin and ezetimibe, bempedoic acid, or PCSK9-I, or a combination of them

10:20 What the Busy clinician should know about diabetes care: from glycemic control to GLP-1 antagonists

10:30 Wound care: bridging the gap between procedural success and ulcer healing

10:40 Panel Discussion & Q&A

11:00 Survey sulla gestione del profilo lipidico nel paziente con arteriopatia periferica vascolare: risultati ad un anno

VENERDÌ, 20 GIUGNO 2025

11:30 **ENDOVASCULAR TREATMENT OF INFRAINGUINAL ATHEROSCLEROSIS**
13:30

11:30 Clinical scenario: PAD – SFA chronic total occlusion (CTO)

11:50 My pearls for CTO Interventions

11:55 Clinical scenario: PAD – Acute SFA Occlusion

12:15 My pearls for acute occlusion interventions

12:20 Clinical scenario: BTK (below-the-knee disease)

12:40 My pearls for BTK interventions

12:45 Clinical scenario: CFA (common femoral artery disease)

13:05 My pearls for CFA interventions

13:10 Discussion

13:30 **LUNCH SPONSORED SYMPOSIUM**
14:30

VENERDÌ, 20 GIUGNO 2025

14:30 HOT TOPICS IN ENDOVASCULAR INTERVENTIONS: A PRACTICAL GUIDE
15:45 FROM AORTA TO THE FOOT

14:30 How to perform aorto-iliac interventions: techniques and device selection –

14:40 Paclitaxel- and sirolimus-based devices for femoro-popliteal interventions: state of the art in 2025

14:50 Managing calcified lesions: what to have on the shelf and how to use it

15:00 Re-entry devices: how to get back on track

15:10 No-stenting zones: how to optimize treatment and improve outcomes

15:20 Pedal plantar loop: tips and tricks for success

15:30 A deep dive on deep vein arterialization: when and how to do it

15:40 Discussion

VENERDÌ, 20 GIUGNO 2025

15:45 THE ROLE OF CAROTID REVASCULARIZATION AFTER THE NEW ESC GUIDELINES 16:30

BURNING QUESTIONS

15:45 Does carotid bifurcation revascularization still make sense in asymptomatic patients?

15:53 What is the future of carotid stenting?

16:01 Is there still a role for first-generation stents?

16:09 Access route for carotid interventions: does it matter?

16:17 Protection in intervention: distal, proximal, or none?

16:25 Discussion

16:30 INTERVENTIONAL STRATEGIES FOR ISCHEMIC AND HEMORRHAGIC BRAIN DISEASES 18:00

16:30 Endovascular treatment of large core strokes

16:40 Clinical Scenario presentation

16:47 Management of subdural hematomas

16:57 Clinical scenario presentation

17:04 Endovascular treatment of cerebral venous thrombosis

17:14 Clinical scenario presentation

17:21 Anticoagulation therapy management after stroke

17:31 Discussion

VENERDÌ, 20 GIUGNO 2025

18:00 THE HOT TOPIC LECTURE
19:00

Erectile dysfunction: from diagnosis to endovascular therapy

Discussion

SABATO, 21 GIUGNO 2025

08:45 **AORTIC DISEASE**
10:15

1) AAA: BURNING QUESTIONS

Short neck - still the Achilles heel of EVAR?

How to approach angulated neck?

How to treat iuxta e pararenali AAA

The role of CO2 in the treatment of CKD patients

Preventive embolization to avoid type II endoleak

2) TAA: BURNING QUESTIONS

What is new in ESC Guidelines 2024

How to revascularize the subclavian artery during TEVAR

3) OBSTRUCTIVE AORTIC DISEASE DEBATE

Always bare

Always covered

SABATO, 21 GIUGNO 2025

10:15 **BREAKING THE WALL: EXPLORING THE ARMAMENTARIUM FOR SEVERELY**
11:00 **CALCIFIED LESIONS**

10:15 Directional atherectomy: clinical scenario & technique

10:23 Rotational atherectomy: clinical scenario & technique

10:31 Orbital atherectomy: clinical scenario & technique

10:39 Intravascular lithotripsy: clinical scenario & technique

10:47 Excimer laser atherectomy: clinical scenario & technique

10:55 Panel Discussion & Q&A

11:00 *Coffe break*

11:20

SABATO, 21 GIUGNO 2025

**11:20
12:50 CHRONIC KIDNEY DISEASE**

11:20 Percutaneous AV fistula creation: clinical scenario & topic review

11:30 AV fistula stenosis: clinical scenario & topic review

11:40 Renal artery stenting: when and how

11:50 From contraindication to indication: renal denervation for CKD

FOCUS LECTURES

12:00 New prosthetic materials for AV fistula creation

12:10 Endovascular treatment of central venous stenosis

12:20 Discussion

**12:50
13:30 THE HOT TOPIC LECTURE**

Endovascular training: not only patient based

**13:30
14:30 LUNCH SPONSORED SYMPOSIUM - PERIPHERAL INTERVENTION**

SABATO, 21 GIUGNO 2025

14:30
15:15 **VENOUS DISEASE**

Medical therapy of DVT

Endovascular therapy of venous insufficiency

Endovascular therapy of DVT

15:15
16:00 **PULMONARY EMBOLISM**

2025 State of the ART

What is limiting the adoption of endovascular approach in the clinical practice

The time dependent network for PE: still possible

16:00
17:30 **ROUND TABLE: COMPLEX SCENARIOS COMPLICATIONS AND GREAT SAVES**

17:30
17:45 **Take home message**
